SUMMARY

Frontend Developer with hands-on experience building full-stack web applications using React.js, Node.js, and MongoDB. Skilled in developing responsive UIs, integrating REST APIs, and implementing real-time features using Socket.IO. Good understanding of JavaScript, component-based architecture, and state management. Comfortable working across the MERN stack with a strong focus on clean, functional frontend development.

EDUCATION

REVA University

2023 – 2027

B.Tech in Computer Science and Information Technology

PROJECTS

Campus Event Finder

React.js | Node.js | MongoDB | Socket.IO

- Built a full-stack event management platform with real-time event updates and live notification workflows using Socket.IO.
- Developed reusable React.js components and integrated REST APIs to handle event creation, updates, and user interactions.
- Automated event reminders using Node-cron and optimized frontend state management for a smooth user experience.
- Focused on accessible, responsive UI design to ensure consistent usability across devices.

Personal Portfolio Website

React.js | JavaScript | CSS3 | Vercel

- Designed and deployed a personal portfolio showcasing projects, skills, and certifications with a clean, modern UI.
- Implemented responsive layouts, smooth animations, and reusable component structures for maintainable code.
- Deployed via Vercel with GitHub-integrated CI/CD. Live at: sushantm-portfolio.vercel.app

TECHNICAL SKILLS

Languages: JavaScript, Java, Python

Frontend: React.js, HTML5, CSS3, Responsive UI Design, Component-Based Architecture

Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication

Databases: MongoDB, MySQL

Core Concepts: Data Structures, OOP, DBMS, API Integration, State Management

Tools & Platforms: Git, GitHub, Postman, Linux, Node-cron, Vercel

AI Exposure: Generative AI Fundamentals, Prompt Engineering Basics

ACHIEVEMENTS & CERTIFICATIONS

- Gemini Certified Student – Google for Education (2025)
- Completed AI & ML Masterclass – Eureka Association in collaboration with REVA University
- Full-Stack Developer Industry Simulation – focused on scalable web application workflows
